Working Order

Automatic Elite 679 movement running smoothly.

All functions operating as expected.

Tested and ready to wear with reliable performance.

Our View

Zenith's Pilot collection is renowned for its oversized cases and exceptional readability, and this reference delivers on both fronts. The slate/grey sunray dial adds a more contemporary edge, while the riveted strap and large Arabic numerals maintain authentic aviation styling.

Powered by Zenith's slim and reliable Elite movement, this watch balances size with wearability, making it a great option for those wanting a statement pilot's watch without compromising on comfort or quality.
