All functions operating exactly as expected.

Our View

The Seamaster 300M is one of Omega's most iconic modern designs, and this blue wave dial version is the one that defined the Bond era. With its helium escape valve, skeleton hands and distinctive bracelet, it remains instantly recognisable and highly collectible.

This example strikes a great balance — original, well maintained and properly serviced, yet still offering the honest signs of use collectors often appreciate. A versatile, everyday luxury diver with real heritage and enduring appeal.
