

**Marco Oldani For John Rasmussen Diamond Tower Ring - Saddingtons Jewellery Stand 375
£1,995.00**

Marco Oldani For John Rasmussen Diamond Tower Ring. A remarkable contemporary diamond ring by Marco Oldani for respected danish jeweller John Rasmussen based in Limone Italy. It is crafted in 18ct white gold and showcasing approximately 1.50cts of diamonds in an eye-catching architectural tower design. At the centre of the ring sits a superb 0.60ct round brilliant-cut diamond, E in colour and VS2 clarity. This exceptional diamond is elevated within the design, drawing the eye immediately to its impressive brilliance and fire. Surrounding the centre stone are twenty-eight additional diamonds with a combined weight of approximately 0.90cts, creating a dazzling display of light from every angle. The sculptural tower setting is a distinctive feature of the design, giving the ring a strong contemporary aesthetic while maintaining the timeless appeal of fine diamond jewellery. Signed 'Oldani' to the shank, inside the shank is also a 750 carat stamp as well as MU-56. The ring also has a 750 gold stamp on the back of the shank. Substantial in both weight (9.1g) and presence, the ring is beautifully crafted in 18ct white gold and offers an unusual alternative to more conventional diamond cluster or solitaire designs. The tower has a height of 1cm from the base to the top. Its architectural styling makes it an ideal choice for those seeking a statement diamond ring with individuality. The ring comes with a Certification. Please contact us if you would like to know more about this wonderful ring or visit us at Saddingtons Jewellery, Mayfair.
