

Edwardian Knot & Reef Albert Chain With T-Bar - Saddingtons Jewellery Stand 375
£875.00

Brilliant Edwardian Knot & Reef Albert Chain With T-Bar. A distinctive Edwardian silver Albert chain featuring alternating knot and elongated reef-style links, complete with its original T-bar fitting. Originally designed as a gentleman’s watch chain during the early 20th century, this versatile piece has been beautifully repurposed as a stylish necklace, perfectly suited to modern wear. The intricate knot links provide visual interest and texture, whilst the elongated reef links create an elegant flowing design. Crafted in silver, the chain retains the substantial quality and craftsmanship associated with Edwardian jewellery. The original T-bar remains in place, creating an attractive focal point when worn at the front of the necklace. The chain measures 17.5 inches and weighs 39.6g and features makers marks throughout the piece. Albert chains have become increasingly sought after for their versatility, offering a timeless blend of antique character and contemporary style. Equally at home worn alone or layered with other necklaces. Please contact us if you would like to know more about this fantastic neck chain or visit us at Saddingtons Jewellery, Mayfair.
