

Cartier Tank Francaise 2384 W51030Q3 Limited Edition "Raspberry
£2,800.00

If you love the iconic, structured silhouette of the Cartier Tank Française but want something thatfeels incredibly rare and exclusive, this is the ultimate prize. This isn't the standard dial you see on everyone else's wrist; this is a highly collectible, 2006 Christmas Limited Edition piece.

The absolute star of the show is the striking Raspberry Pink dial. It is beautifully detailed with asubtle, repeating interlocking Cartier motif across the background and finished with crisp, silveredRoman numeral hour markers and matching polished sword hands. To complete the customaesthetic, Cartier traded out their traditional blue crown gem for a pink spinel cabochon that matchesthe raspberry dial perfectly.

What makes this specific piece even more special is its provenance: we have verified it directly with the Cartier archives, confirming it was officially sold in 2008. Having that direct link to the brand's history adds an incredible layer of collectibility to an already rare watch.

The iconic rectangular case and seamlessly integrated brick-link steel bracelet have been professionally polished to a very high standard, bringing back that mirror-like luxury finish while keeping the sharp geometric lines intact.

Inside, the watch has just been fitted with a fresh battery replacement for its reliable Swiss quartz movement, making it completely accurate, low-maintenance, and ready to wear without a care in the world.
