All functions operating as expected.

Fully tested and ready to wear.

Our View

The Dunhill Carwatch is one of the more distinctive designs to come from the brand, clearly influenced by automotive aesthetics. The elongated rectangular case, bold crown and internal cyclops date all give it a unique identity that sets it apart from conventional watches.

With its limited edition status, unusual case architecture and reliable Swiss movement, this is an excellent choice for collectors looking for something different — a watch that blends design, engineering and individuality.
