

18ct Gold Diamond Pavé Heron Brooch with Emerald Eye Spectrum Antiques POA

A wonderfully characterful 18ct gold heron brooch of exceptional craftsmanship, the bird's body and wings entirely pavé-set with a generous spread of brilliant-cut diamonds in white gold, while the legs and feet are rendered in rich yellow gold — a deliberate and beautifully judged contrast that brings the heron to life with both elegance and wit. A single emerald set as the eye completes the composition with a flash of colour that is perfectly placed and perfectly to scale.
