

**Edwardian Emerald & Diamond Cluster Ring - Saddingtons Jewellery
Stand 375
£1,895.00**

Edwardian Emerald & Diamond Cluster Ring. An elegant Edwardian emerald and diamond clustering crafted in platinum, centring on a vibrant natural emerald surrounded by a halo of sparkling 4 cut diamonds. The finely proportioned octagonal cushion shape cluster is enhanced with delicate millegrain detailing, a hallmark of Edwardian craftsmanship that beautifully frames each individual stone. The vivid green emerald creates a striking contrast against the brilliance of the surrounding diamonds, whilst the platinum setting allows the gemstones to take centre stage. The refined openwork carved gallery design and slender shank reflect the light. Edwardian jewellers embraced platinum for its strength and ability to showcase diamonds with exceptional brilliance, creating elegant designs that remain timeless over a century later. Whether chosen as a unique engagement ring or a treasured addition to an antique jewellery collection, this Edwardian emerald and diamond cluster ring is a beautiful example of early twentieth-century design. The top measures 10mmx9mm, the total diamond weight is 0.5cts and the emerald is also approx 0.5ct.
