

Edwardian Burma Ruby & Diamond Cluster Ring - Saddingtons Jewellery Stand 375
£1,325.00

Edwardian Burma Ruby & Diamond Cluster Ring . A beautiful Burmese ruby and diamond cluster ring crafted in 18ct yellow gold with a platinum-topped setting. The ring centres on a vibrant cushion-shaped natural Burmese ruby, framed by a sparkling halo of 12 8 cut diamonds. The richly coloured ruby displays the coveted vivid red hue for which Burmese rubies have been admired for centuries. Encircling the centre stone is a finely matched cluster of old-cut diamonds, each individually set within platinum to maximise brilliance and showcase the exceptional craftsmanship of the period. The combination of platinum and 18ct yellow gold became a defining characteristic of fine Edwardian jewellery, allowing diamonds to appear brighter while retaining the warmth and richness of a gold shank. Inside the shank is a ‘ETIME 1538’ mark Delicate millegrain detailing and the softly cushion-shaped cluster lend the ring a refined elegance that continues to captivate collectors and antique jewellery enthusiasts. The diamond weighs a total of 0.36ct and the ruby is approx 0.8cts. Please contact us if you would like to know more about this gorgeous ring or visit us at Saddingtons Jewellery, Mayfair.
