Our View

The Portofino Chronograph is one of IWC's most elegant modern designs, blending dress watch refinement with everyday practicality. The clean black dial, applied silver markers and balanced chronograph layout create a sophisticated look that works equally well in formal or casual settings.

This example benefits from a recent service, strong timekeeping and full-set completeness, making it a particularly attractive proposition. Left unpolished and honest, it retains the character collectors often prefer while remaining in excellent overall condition.
