Bracelet: Steel bracelet in very good condition.

Overall: A well-kept and elegant example.

#### Working Order

Manual wind movement running smoothly.

All functions operating exactly as expected.

Supplied with a 12-month mechanical guarantee.

#### Our View

The Reverso is one of the most important designs in horology, originally created in 1931 with its signature reversible case. This Grande Reverso Lady Ultra Thin takes that heritage and refines it into a slim, elegant and highly wearable ladies' piece.

What makes this reference particularly appealing is the combination of manual JLC movement, ultra-thin profile, and factory diamond bezel — a rare balance between true watchmaking pedigree and jewellery-level finishing.

A sophisticated and collectible timepiece that offers both technical merit and timeless style, perfectly suited to those seeking something truly special.
