Our View

The Constellation has long been Omega's flagship luxury collection, and this reference showcases exactly why. The combination of solid 18ct yellow gold, factory-set diamonds and Omega's renowned finishing creates a watch that feels every bit as luxurious as it looks.

Unlike many gem-set watches, the diamond setting is tasteful and elegant, complementing the distinctive Constellation design without overwhelming it. The rich dial, integrated gold bracelet and compact proportions make this a truly special ladies' timepiece.

A rare opportunity to acquire a beautifully complete example of a discontinued Omega luxury model.
