Our View

The Carrera remains one of TAG Heuer's most iconic collections, and this ladies' reference perfectly showcases why. The clean lines of the Carrera case pair beautifully with the natural mother-of-pearl dial, which catches the light differently from every angle.

At 32mm, it offers an ideal balance of elegance and wrist presence, while the 100m water resistance and reliable quartz movement make it a genuinely practical luxury watch for everyday wear.

As a discontinued model, examples complete with their original boxes and warranty card are becoming increasingly difficult to source, making this a superb opportunity for collectors and everyday wearers alike.
