Supplied with our 12-month mechanical guarantee.

Our View

The Pasha collection has always occupied a unique place within Cartier's history. Originally conceived for the Pasha of Marrakech, the design was notable for its emphasis on water resistance without sacrificing elegance.

The Seatimer variant introduced a more contemporary and sporting feel, making it one of the most wearable modern Cartiers. The combination of the white dial, rotating bezel, distinctive crown protection system and automatic movement creates a watch that is equally at home in a collection or as a daily wearer.

Presented as a full set, recently serviced and in immaculate condition, this is an outstanding example of one of Cartier's most characterful sports watches.
