Our View

The Santos Ronde is one of Cartier's most underrated models. It combines the unmistakable DNA of the Santos collection with a softer and more versatile round case design, creating a watch that feels both sporty and elegant.

What really impresses here is the condition. The sharp case, clean dial and notably tight bracelet suggest careful ownership throughout its life. The compact dimensions make it an excellent choice for gentlemen seeking a refined daily wearer or for anyone looking for a sportier Cartier with timeless appeal.

The addition of the original Cartier papers further enhances the watch's desirability and collectability, making it an increasingly difficult model to source in such complete and original condition.
