Our View

The Club Campus 38 Night perfectly encapsulates what makes NOMOS so appealing. The combination of German engineering, minimalist Bauhaus design and playful colour accents creates a watch that feels both contemporary and timeless.

The Night Glass Black dial gives the watch tremendous presence, while the orange accents add just enough personality to set it apart from more traditional dress watches. The in-house Alpha calibre remains one of the finest hand-wound movements available at this price point.

Presented as a complete 2019 set and in very good condition throughout, this is an excellent opportunity to acquire one of NOMOS' most versatile and wearable models.
