

**Sapphire and Diamond Cluster Ring in 18ct White Gold-Spectrum
Antiques
£5,850.00**

A magnificent high-jewellery statement piece, hallmarked Birmingham, 1994. This commanding 18ct white gold ring centres a certified 2.5ct Sri Lankan (Ceylon) sapphire, celebrated for its vivid, saturated blue hue. The central gem is framed by a dazzling double-halo "sunburst" of brilliant-cut diamonds totaling approximately 1.00ct (SI/I1 clarity, I colour).

The ring is a masterpiece of British craftsmanship, featuring a substantial 7.9g mounting with a decorative pierced gallery. Sri Lankan sapphires are among the most coveted in the world, and finding a stone of this significant carat weight in a vintage British setting is a rare opportunity. This is an investment-grade piece, perfect for a landmark engagement or as the crowning jewel of a private collection.
