

Vintage 18ct Gold Emerald, Sapphire & Ruby Rondelle Necklace

Spectrum Antiques
POA

A substantial 18ct Italian gold necklace built from double wheat-link chain, its rope-like twist giving real depth and movement. Three gem-set rondelles punctuate the length — channel-set rows of emerald, sapphire and ruby — spaced evenly along the chain rather than clustered, so the colour reads as a considered rhythm rather than a single focal point. The concealed box clasp with safety catch is stamped 750, confirming both the 18ct standard and Italian origin. A weighty, wearable piece with genuine presence on the neck.
