

Edwardian Chrysoberyl Cat's Eye & Diamond Cluster Ring - Saddingtons Jewellery Stand 375
£1,495.00

A beautiful Edwardian chrysoberyl cat's eye & diamond cluster ring. The cluster is centred with an oval mossy pistachio tone green cabochon-cut chrysoberyl displaying the distinctive band of light described as a cats eye. The 0.52mm x 0.65mm chrysoberyl is surrounded by a halo of 12 Edwardian cut diamonds totalling to 0.20ct, individually claw-set to form a classic oval cluster. The elevated open gallery allows light beneath the stones, while the gently tapering shoulders lead into a simple polished shank. This stunning ring weighs 2.3g and can be resized. Please contact us if you would like to know more about this gorgeous ring or visit us at Saddingtons Jewellery, Mayfair.
