

IWC Tank Style Onyx Dial 18k Gold £3,750.00

Rare 18K Gold IWC with Onyx Dial – Tank Style

A rare and highly desirable 18K gold IWC featuring a striking onyx dial. The fashionable tank-style case has an elegant presence on the wrist and wears beautifully, making it a particularly appealing vintage timepiece.

The onyx dial is in excellent condition, with no spidering or cracks.

There is one noticeable scratch on the crystal/glass, as shown in the photographs.

The watch is working and running.

The watch does not have its original buckle and is currently fitted with a replacement leather strap. We can also provide an additional leather strap in a colour of your choice.

The watch currently has steel screw backs. We are unsure whether the watch was originally supplied with gold or steel screw backs, so this is being disclosed for complete transparency.
