

18ct White Gold Emerald Cut Aquamarine and Diamond Ring Spectrum Antiques
£1,850.00

A striking 18ct white gold dress ring centred on a beautiful emerald-cut aquamarine with a clear, icy blue colour characteristic of the finest commercial-grade stones. The aquamarine is four-claw set and flanked on each shoulder by a graduating cluster of three round brilliant diamonds, giving the ring a balanced, elegant head measuring 15 x 9.5mm overall — substantial enough to make a real impression without being overdone.
