

**Jaeger-LeCoultre Atmos Atlantis Lunar Phase Circa Mid to Late 1990s
£11,000.00**

A fascinating and highly collectible Jaeger-LeCoultre Atmos.

Our present Jaeger-LeCoultre Atmos features a lunar phase display and the less commonly encountered gold-plated configuration, with JLC-signed glass.

Its 250mm × 275mm × 152mm case offers a substantial yet well-proportioned presence on a desk or shelf.

This Atmos clock comes with its original outer box and its instruction card and has been serviced in November 2025.

The ingenious Atmos mechanism requires no conventional winding. A hermetically sealed gas-filled capsule responds to subtle changes in ambient temperature, providing energy to the spring barrel and allowing the clock to run with remarkably little human intervention.

It has been thoroughly inspected by our watchmaker, is fully functioning and keeping good time.

To give collectors peace of mind we provide a 1 year mechanical warranty.

Our boutique is located in Mayfair London, United Kingdom. All of our current inventory is available to view in store Monday to Friday from 11am to 5pm.

All of our watches are authenticated by vintage watch experts and we stand by every product we sell.

We ship worldwide and are at your service for any assistance you require.
