

Cartier C2 Diamond Ring in 18k White Gold
£3,495.00

A striking example of Cartier's bold C2 collection, this substantial ring is crafted in 18k white gold, combining contrasting satin and highly polished finishes with Cartier's unmistakable architectural styling.

The broad open band terminates in opposing geometric forms, each beautifully pavé-set with brilliant-cut diamonds, creating a flash of brilliance against the softly brushed white gold. Polished borders frame the design and emphasise the strong, sculptural proportions of the ring.

Weighing an impressive 14.18g, this is a particularly substantial example of the C2 design and has a wonderful weight and presence when worn.

The interior is signed Cartier, numbered and marked 750 and 57.

Details

18k White Gold
Brilliant-Cut Diamonds
Cartier C2 Collection
Size EU 57 / UK P
Weight 14.18g
Signed & Numbered Cartier
Serial No. PI xxxx
Accompanied by a Cartier Presentation Box
