

By Annoushka - Citrine & Coloured Diamond Drop Earrings in 18k Yellow Gold
£2,250.00

An exceptional and highly wearable pair of signed Annoushka Citrine and Coloured Diamond drop earrings, masterfully crafted in 18k yellow gold and accompanied by their original Annoushka presentation box.

These beautifully balanced earrings centre upon a pair of richly saturated oval citrines, each weighing approximately 1.50 carats, displaying the warm golden-amber tones for which the gemstone has long been admired. The citrines are framed within delicate halos of natural coloured diamonds — twenty-eight in total, weighing approximately 1.40 carats combined — exhibiting an elegant spectrum of cognac and champagne hues that lend remarkable depth and warmth to the design.

Suspended from finely pavé-set diamond hoop fittings, the earrings demonstrate Annoushka's celebrated ability to combine contemporary luxury with subtle references to antique jewellery traditions. The softly oxidised settings surrounding the coloured diamonds evoke the romance of Georgian and Victorian cluster jewellery, while the clean bezel-set citrines and refined proportions ensure a thoroughly modern and effortlessly wearable aesthetic.

The earrings are fully signed and hallmarked for 18k gold, confirming both their authenticity and quality of manufacture. Their original fitted Annoushka box further enhances their desirability for collectors and connoisseurs of contemporary British designer jewellery.

Elegant yet understated, these earrings possess the rare versatility to transition seamlessly from daytime wear to evening occasion dressing. The warm palette of yellow gold, cognac diamonds and luminous citrine creates a refined interplay of colour and light that is both distinctive and timeless.
