

Rolex Datejust 126200 Green Ombré Dia
£8,750.00

Watch: Rolex Datejust 126200 Green Ombré Dial – Unworn – Full Set – 19/07/2026

Sku: CHW7502

Price: £8750

A truly stunning and highly sought-after Rolex Datejust 36 reference 126200, presented in unworn condition and supplied as a complete full set dated 19th July 2026. Featuring one of the most striking modern Rolex dial configurations, the Green Ombré dial combines a rich green centre that gradually darkens towards the edge, creating exceptional depth and character.

The ombré dial was reintroduced by Rolex in 2019 and remains one of the most desirable contemporary Datejust variations. The lacquered finish and unique colour gradient give this watch a completely different personality compared to standard dial options.

Featuring Rolex's Chronergy escapement, Parachrom hairspring and Paraflex shock absorbers, the movement offers outstanding reliability and precision.

All functions operating perfectly.

Covered by the balance of the Rolex manufacturer's warranty.

Our View

The Green Ombré dial is undoubtedly the star of the show. The gradual transition from vibrant green to deep black creates a remarkable visual effect that changes continuously depending on the lighting. Combined with the elegant Jubilee bracelet and ideal 36mm proportions, this reference perfectly balances sportiness and sophistication.
