Our View

The Softwatch remains one of the most unusual and entertaining watch designs ever produced. Drawing direct inspiration from Salvador Dalí's famous surrealist artwork, its distorted case shape challenges traditional watch design while remaining remarkably wearable.

Collectors are increasingly drawn to these pieces due to their originality and strong artistic connection. The Mother of Pearl dial adds a touch of elegance to the playful design, while the original strap and buckle enhance its collectability.

A fantastic opportunity to own a genuine design icon that stands far apart from conventional luxury watches.
