

Omega 131.019
£995.00

Watch: Omega 131.019
Stock Number: CHW7538
Price: £995.00

This watch is much more than a classic vintage Omega from the 60's. Take the dial for a start, a rare and unusual silver dial with applied silver number hour markers which gives this watch a unique feel to it. Something different to the more common baton hour markers.

Dated to 1967 by the paperwork when first sold however serial number shows us a production date of 1965.

Condition: New and unworn strap, Dial and glass practically perfect. Case very minor light scratches here and there but to be honest for a watch of this age its a 9/10 for condition from us. Exceptional condition, even the box survives in such good condition too.

Working Order: Running at under plus 15 seconds per day this watch runs perfectly fine for a vintage watch. Passed through our workshop and guaranteed but not serviced however can be at an additional cost if you wish.

Accompanied with: Original box, Original Omega Papers, 12 Month guarantee, New strap, next day delivery.

What a fine example!
