

Georgian Spinel Basket Ring - Charlotte Sayers £16,500.00

An exceptional Georgian spinel and diamond ring, circa 1720–1760, crafted in silver and 18ct gold. The ring is set with an impressive octagonal step-cut natural spinel weighing approximately 5.00 carats and measuring 12.10 x 10.60mm. The purplish-pink spinel is foil-backed, as was characteristic of the period, and is flanked by twelve old single-cut diamonds totalling approximately 0.25 carats, J–K colour and SI1–SI2 clarity. The stones are arranged in a wonderful Georgian basket setting, with a distinctive ribbed shank continuing around the finger. A rare and beautifully preserved example of an early Georgian spinel ring, with wonderful character and presence.

Current Ring Size: G

Weight: 6.00 grams

The head of the ring measures 1.2cm north to south

Condition	Very good
