

Victorian Cabochon Emerald Ring - Charlotte Sayers

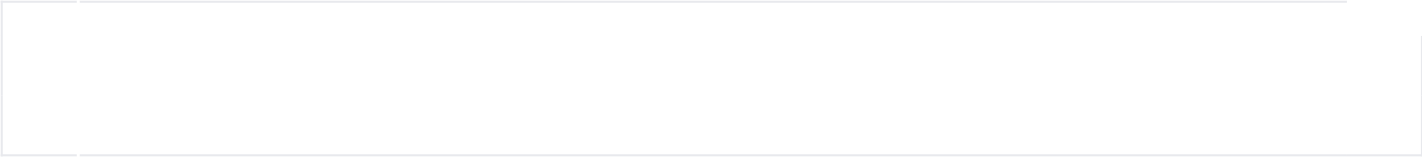

£10,500.00

A truly one-of-a-kind late Victorian Colombian emerald and diamond cluster ring, dating to the late 19th century and set in 22ct yellow gold. At its centre is a magnificent oval cabochon-cut natural Colombian emerald weighing approximately 4.30 carats. The emerald is a beautiful green colour with a jardin of inclusions. The emerald is framed with rose-cut diamonds and an outer border of old mine-cut diamonds, creating a wonderfully distinctive double diamond surround. The diamonds have a combined weight of approximately 1.20 carats, H-I colour and SI1 clarity. Certified by WGL.
