

Vintage Old Mine Cut Diamond Ring. POA

Vintage Diamond Ring set with one natural Old Mine cut diamond complemented by twenty natural Old European - Cut and Single cut natural Diamonds.

Old Mine Cut Diamond: 2 carats, colour M.

Old European - Cut and single cut diamonds:

1 Carat total weight colour G/H

Set in 18ct white gold.

Independently Certified.

Note: Antique Diamond cuts are distinguished by their larger, chunkier facets and higher crowns characteristics designed to enhance their beauty in the low-light conditions of the period, such as gaslight and candlelight.

In Old Cut Diamonds a warm M colour can be particular prized by collectors of vintage jewellery for its authentic antique character and old-world charm..Rather than the icy-white appearance associated with higher grades, an M - colour diamond displays a soft, romantic, honey-toned warmth reminiscent of candlelight and history.
