Our View

The Vendôme is one of Cartier's most elegant and understated designs. Featuring the collection's distinctive round case with integrated lugs, it offers a softer aesthetic than the Tank while retaining all of the timeless charm associated with vintage Cartier.

This particular example stands out thanks to its immaculate dial and exceptionally well-preserved vermeil case. Finding vintage Must de Cartier models with such strong overall presentation is becoming increasingly difficult, particularly in the desirable 24mm size.

Elegant, wearable and unmistakably Cartier, this is a wonderful vintage piece that remains just as stylish today as when it first left the Cartier boutique.
