

9ct Fetted L
£2,375.00

A refined and elegant antique 9ct yellow gold fetters link Albert chain, designed with alternating long and round links that give it both character and movement. The piece showcases the warm tone and classic craftsmanship associated with early 20th-century English gold jewellery.

Substantial yet understated, the chain drapes beautifully when worn as a necklace and can also be styled as a double-wrap bracelet. The elongated links catch the light with subtle sophistication, and the polished finish accentuates the buttery hue of the gold.

The design — a variation on the traditional fetters link — embodies a timeless blend of strength and refinement, making it equally suited to both modern and vintage-inspired wardrobes.
