

Art Deco-St
Spectrum A
£3,200.00

A stylish emerald and diamond cluster ring in the Art Deco style, crafted in 18ct white gold, circa 1950.

At its centre sits a bright 1.10ct natural Zambian emerald, of medium green hue and moderate clarity, set within a square bezel mount flanked by step-cut emerald shoulders. Surrounding the centre is a halo of old transitional-cut diamonds, totalling approximately 0.28ct, graded H colour, SI clarity, arranged in a precise circular formation that echoes the architectural symmetry of Deco design.

Subtle warmth from the underlying gold tones enhances the rich colour contrast between the emeralds and diamonds, giving the piece distinctive vintage character. Elegant and versatile, this ring captures the enduring appeal of Art Deco design through a refined mid-century interpretation.

Details:

Metal: 18ct White Gold (tested)

Gemstones:

Centre: Natural Zambian Emerald, approx. 1.10ct, moderate clarity
