

Victorian 18ct Yellow Gold Ring with Hand-carved Cameo Antiques

£1,350.00

An exceptional piece of Victorian jewellery, this ring is made of 18ct yellow gold and features a large, hand-carved cameo. Unlike traditional cameos, which are often made of dark, translucent stone, this cameo is carved from a lighter material, giving it a unique appearance.

The cameo depicts a classical figure, possibly a deity or a historical figure, and is set in a bezel of 18ct yellow gold. The ring is flanked by decorative scrollwork and is a testament to the craftsmanship of the Victorian era. It is a beautiful piece of jewellery, combining history and art.
