

Chunky Ge
£3,550.00

An exceptional and substantial chunky gate link bracelet, hallmarked London, 1990. This 9ct yellow gold piece is a masterclass in geometric minimalism, featuring three rows of interlocking, high-polish rectangular "D-section" links that create a broad, armor-like silhouette on the wrist.

Weighing over 50g, the bracelet possesses a significant "heft" and luxury feel. It is secured by a robust integrated box clasp with dual safety catches for added security. A bold, architectural statement piece, this bracelet perfectly captures the "Power Dressing" aesthetic of the late 20th century while remaining a timeless staple of a modern jewellery wardrobe.

Details
