A beautifully vibrant pair of vintage clip earrings, crafted in rich 18ct yellow gold and set with a striking cluster of bright turquoise cabochons, arranged in a bold floral-style formation. Each earring is further accented with a small trio of brilliant-cut diamonds, adding just the right amount of sparkle and contrast against the vivid blue stones.

Finished with elegant openwork gold scroll detailing and secure clip fittings, these earrings are a wonderful statement pair — full of colour, character and mid-century glamour.
