Condition Report

Case: Very good condition with light signs of wear consistent with careful ownership.
Bezel: Excellent condition with crisp Hour Angle markings.
Dial: Clean and well-preserved throughout.
Crystal: Sapphire crystal free from notable scratches or blemishes.
Bracelet: Very good condition with light age-related wear.
Caseback: Clear exhibition back displaying the automatic movement.
Overall: A very attractive and increasingly collectible aviation chronograph.

Working Order

The Longines L674.8 automatic chronograph movement is operating exactly as intended.

Based on the renowned Valjoux 7750 architecture, it remains one of the most respected and reliable chronograph calibres ever produced.

All chronograph, day and date functions operating correctly.

Supplied with our 12-month mechanical guarantee.

Our View

The Lindbergh Hour Angle occupies a special place within the Longines catalogue. Originally inspired by Charles Lindbergh's navigational concept following his historic transatlantic flight, the model remains one of the most recognisable aviation watches ever produced.
