

Frank Muller TransAmerica Megapole Chronograph World Time Limited Edition
£5,900.00

A different side of Franck Muller, where sporting design meets a traveller’s outlook.

Our present Franck Muller Transamerica Megapole brings together a chronograph and a world-time complication in a design that rewards a closer look.

Rather than placing a ring of city names around the dial, it displays them through an aperture at 3 o’clock, with 14 cities represented, including London, New York, Tokyo and Milan.
