Cartier Santos Octagon 0907 Automatic Gold & Steel

Cartier Santos Octagon 0907 – A charming and characterful vintage Cartier that perfectly captures the appeal of the brand's designs from the 1980s and 1990s. With its distinctive octagonal bezel, classic white dial and iconic black Roman numerals, the Santos Octagon remains one of Cartier's most recognisable and collectable vintage models.

This particular example embraces its age and originality. The dial displays spidering and areas of cracking, including a small section where the lacquer has lifted away, but it remains original to the watch and provides the sort of authentic vintage character that many collectors actively seek. Presented on a new high-quality leather strap and supplied in a Cartier pouch, this is a wonderfully honest example of a classic Cartier.

Condition Report

Case: Very good vintage condition with signs of wear consistent with age and careful ownership.
Dial: Original dial showing spidering, cracking and a small area of loss. The remainder of the dial presents well and retains excellent vintage character. Can be replaced by cartier at an additional cost.
Hands & Markers: Good condition throughout with excellent legibility.
Crystal: Sapphire crystal in good condition.
Strap: New high-quality leather strap fitted.
Overall: An honest and attractive vintage Cartier where originality takes precedence over restoration.
