£12,500.00

A distinctive alarm diver with a clear sense of heritage.

Our present Jaeger-LeCoultre Memovox Tribute to Deep Sea, with the reference 134.8.96, features a matte black dial with luminous hour markers in an aged, vintage-style tone.

A central alarm indicator triangle sits at the heart of the dial, and a fixed black bezel with luminous markers frames it.

Its 40.5mm stainless steel case is a restrained, wearable size for a watch of this complexity. It has two crowns, one for winding and setting the time and one for the alarm.

Released as a limited edition of 959 pieces, it pays tribute to the historic 1959 Memovox Deep Sea.

Being a full set, this timepiece comes with its green Jaeger-LeCoultre presentation box, the Memovox Tribute to Deep Sea booklet and the certificate of origin papers.

Inside beats the Jaeger-LeCoultre calibre 956 automatic alarm movement.

It has been thoroughly inspected and serviced by our watchmaker, is fully functioning and keeping good time.

To give collectors peace of mind we provide a 1 year mechanical warranty.
