

Cartier San
£6,500.00

Watch: Cartier Santos 2960
Stock Number: CHW7688
Price: £6500.00

Brought as part of a parcel from an estate it our understanding that this watch has been left to gather dust for over 20 years. A true barn field in a way, increasingly harder and harder to find even more so in this untouched natural beautiful condition.

Condition: All about the dial, immaculate.... not a blemish in sight on the dial of this special vintage Cartier. Case, bezel and bracelet will show scuffs and light marks as you would expect. We have chosen not to polish.

Accompanied with: Our 12 month guarantee, next day shipping. Lost and stolen check certificate. Original box.

Working Order: Just servied, Amplitude 286, beat error 0.0 and running at around plus 8 seconds per day. Fine working order for a vintage Cartier.

0ur View - Yes you are paying for the condition but then this is a rare chance to own an unpolished and serviced vintage Cartier that is all original with its original box and an immaculate dial. You get to buy it from a respected dealer with 15 years history too :)

* Should be noted bracelet is a little short to fit a wrist to 16cm. Further links can be sourced.

Antique ref: CHW7688
