Omega Speedmaster Triple Date Moonphase 3520.53.00 Automatic 39mm

Omega Speedmaster 3520.53.00 – One of the most complication-rich and underrated members of the Speedmaster family, combining the iconic Speedmaster design with a remarkable array of calendar and chronograph functions. Often referred to by enthusiasts as the "Triple Date" or "Mk40", this reference delivers exceptional value, offering a moonphase display, complete calendar and chronograph complication within a compact and highly wearable 39mm case.

Presented in good overall condition and benefiting from a documented service completed in March 2026, this example offers a fantastic opportunity to acquire one of the most versatile automatic Speedmasters ever produced. Increasingly appreciated by collectors, the 3520.53.00 represents a unique chapter in Omega's history and remains one of the best complication watches available at its price point.
