

1.52ct old cut diamond engagement ring DBGEMS £9,750.00

Great combination of an old diamond and a new mount to give a great effect. Very pretty old European transitional cut diamond weighing 1.52ct I colour Si1 mounted in a clever invisible four claw mount which is diamond encrusted leading to a lift up shank which has diamonds inset on all three aspects. Approximately 0.46cts. All set in platinum
