£1,850.00

- Pearls: South Sea Pearls, Natural colour, Cultured
- Diamonds: total weight 0.50ct approximately

Q:What is South Sea Pearl ?

A:South Sea pearls are cultured using a large, white-lipped oyster, hand-selected from the waters of the South Pacific. The oyster is about twice the size of the Akoya pearl oyster and produces much larger pearls. ... A South Sea pearl oyster can produce up to three or four pearls over the course of its life.
