

Freshwater Multi-Colour Pearl Strand. S.Greenstein
£650.00

A freshwater dark grey pearl strand set with a 14ct yellow gold clasp. The pearls almost have a deep greenish hint to them, they're beautiful. Generally freshwater pearls are very prevalent, however very good quality ones are actually very difficult to find. These are very good quality, they are also individually knotted, which means that if they were to break in one section, none of the pearls would be lost. S.Greenstein & Co

Origin	Asian
Period	21st Century and Contemporary
Style	Contemporary
Condition	Very good
Materials	Gold
Main Gemstone	Pearl

Antique ref: 245
