

Modern Diamond Cluster Ring. S.Greenstein **£1,895.00**

A fabulous 1.2ct diamond cluster ring set in 14k white gold. A cluster with a real difference! A beautiful snowflake ring, with diamonds placed alongside and adjacent to each other. The diamonds are all very high colour and clarity approximately VS1 clarity and F/G colour. It's so nice to have a ring with a difference, rather than the run of the mill cluster ring, of which there are so many out there. S.Greenstein & Co

Origin	British
Period	21st Century and Contemporary
Style	Contemporary
Condition	Very good
