

Sapphire & Diamond 14ct Gold & Platinum Ring | Art Deco c.1930s POA

An elegantly structured Art Deco sapphire and diamond ring, believed to have been made in France around the 1930s, and set in platinum over 14 carat gold.

At its centre is a brilliant old European cut diamond, flanked by two richly saturated French cut sapphires. Millegrain edges, an engraved shoulder design, and a rectangular setting reflect the simple elegance of French Deco design. A pierced gallery allows light to shine through the stones.

Ring size: J
