

Spanish Amethyst Earrings | Rosette Gold Drops in 18ct | c.1950s POA

A pair of striking 1950s Spanish drop earrings in 18ct gold, set with vibrant amethysts totalling around 10 carats.

The stones are rich in colour, full of warmth and sparkle, and surrounded by raised gold rosettes that give a bold, sculptural feel.

The stems are detailed with the same floral texture, adding rhythm and charm.

They feel generous and joyful, with a strong presence, but there's softness in the goldwork that keeps them wearable.

Glamorous without being loud. Confident and romantic.
