

## Garnet & Pearl Cluster Ring | 15ct Gold | Georgian c.1780 POA

Set in 15ct gold, it features a deep red garnet framed by pearls, arranged in a classic floral cluster.

Two further garnets accent the shoulders, each set against elegant scrollwork.

The pairing of garnet and pearl was popular for both its symbolism and its soft visual contrast: garnets represented love and protection, while pearls were often linked with memory and enduring affection.

A timeless ring that still wears beautifully today.

UK ring size M. Very good antique condition.
