

Foliate Engraved Silver & Coral Ring | Art Deco | European c.1920s. POA

This sculptural 1920s ring beautifully captures the moment when Art Nouveau's organic curves gave way to the emerging geometry of Art Deco.

Crafted in 800 silver, a continental standard just below sterling, and stamped 800 B.H., it features two round coral cabochons nestled in swirling openwork silver leaves.

At a UK size M, its oval face sits comfortably on the finger, a beautiful piece of jewellery that's easy to wear every day.

This piece is available to purchase online at www.eltonantiquejewellery.com
